

MELISSA WRIGHT

REPORTER

SUMMARY

Melissa is a passionate multimedia journalist who enjoys telling stories that have a positive impact on small local communities. Her mission is to provide a platform for those who don't have a voice to share their thoughts, opinions, and concerns with others. By sharing meaningful stories, she hopes to change the perspective of outsiders towards the communities she works in.

Melissa has a passion for sharing stories that highlight social issues and health concerns in her community. She believes that the best way to find these stories is by getting involved with the community through socializing and volunteering. She aims to become a familiar face to those she intends to tell stories for, and with.
